IT SMACKS OF SIMPLICITY

for any man to claim to make money by selling at a loss. It's simple to say it and simple to swallow it. If the farmer raised only grain for grain, what he planted, he would starve. If the merchant sells his goods dollar for dollar at the price he bought them, he is out in time, labor and expenses.

WE MUST LIVE,

and we live by our profits, but we don't prey on the public. Our price is actually lower than the much bragged up "low cost" of others. If they sell below cost, they paid big prices. Bad buyers don't make good sellers. Good goods don't have to be sold below cost to get rid of them.

OUR GOODS ARE GOOD.

They pay us to handle and you to buy. We don't have to bribe our buyers, or sacrifice our sales. Here are our goods, at fairest prices. We don't crowd you to buy. Take 'em or leave 'em.
